In the money market no feature of information is one of language and debility. They complain of one presented finelited law. The demand for money is even more pressing than last week, and the very best of names are "turned down" owing to the utter impossibility of complying with their demands. Our banks are almost drained dry of currency and their eastern balances are also low. So much so that it is difficult to supply exchange enough to meet the ordinary wants of the trade without shipping currency, which is done without shipping currency, which is done almost daily. Bases are firm at par to 5 permitum, checking at 9 premium. Local suring and unchanged. Gold is some lower. Dealers bound the stocks and bonds, are quiet and unchanged. Gold is some lower. Dealers bound the stocks and bonds, are quiet and unchanged. Gold is some lower. Dealers bound the stocks and bonds, are quiet and unchanged. Gold is some lower. Dealers bound the stocks and bonds. The New York weekly bank statement is useful to the statement is a statement of the food, every organ is starved, which does common sense suggest under the stocks and bonds, are quiet and unchanged. Gold is some lower. Dealers bold to a more pliable condition than ever facily and permanently.

The New York weekly bank statement is useful to the statement of the food, every organ is starved. New, what does common sense suggest under the food of the food, every organ is alarved, every function interrupted.

THE UTLEY IMPROVED LEVER POWER ROSADALIS

THE LATE IMPROVEMENT MADE ON THIS PRESS By Mr. UTLEY, the Patentee, makes it a complete success. We call particular attention to this peculiarity:

CONTROLS POWER OBTAINED BY AN IRRESISTIBLE LEVERAGE To all wanting a Cotton Press, we only ask for a chance to demonstrate what it will do. Competition is respectfully solicited from other Presses, as to Speed, Efficiency, Durability, Economy and General Amount of Satisfactory Work!

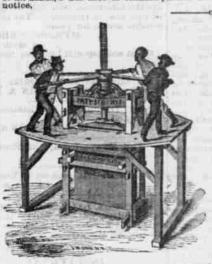

These Presses are HOME-MADE, of the best GUARANTEED WORK. We have, at our manufactory, a Press up, and at work, at No. 6 West Court street, where we would respectfully recommend you to call before deciding upon which Press you will buy. Price, \$210 Complete--- Cash or City Acceptance.

E. W. LONG & BROTHER, No. 6 WEST COURT STREET, MEMPHIS, TENN

FIRST PREMIUM GEORGIA STATE FAIR.

Schofield's Patent Cotton Press

THIS PRESS must commend itself to the cotton planters of the Southern States or durability, simplicity of construction, and ease with which it can be operated by it is hand, horse, water or steem power, the change from one to the other being effected in a fainutes. A great advantage this Press possesses is that occupies for hand power out space of fourteen feet square, and may be placed and operated in a gin-house, thus avoid the necessity of taking cotton out of the house to be packed. It can be used in any kind weather; the Press being in the house, rainy days are no obstacle to packing, as is the case with wooden screws. Another advantage is, when you get Schofield's Press, you have a Press to all time, and one not liable to decay or break, as is the case with the old wooden screw and most other iron screws and presses. This is evident from the fact that the screw is from either wrought or cast, and the trames are of wrought iron, and no part of the Press liable to decay tonches the ground. The frames may be made of wood, at the option of the planter may purchase either the screw and nut alone and put the frame and box of wood to it themselves, or may purchase the ercew, nut and iron frames, and put the woods box to it themselves, or may purchase the ercew, nut and iron frames, and put the woods box to it themselves, or may purchase the ercew, nut and iron frames, and put the woods

Preight to Memphis, 92 cents per 100 poun

Horse Power Press! PRICES SAME, AS HAND POWER PRESS.

This Press, of two-horse power, may be of either cast or wrought-iron screws; wrought ron screws being cut with three-inch pitch for Horse Power. It may be put up either wit or without iron frames—an iron frame being preferable, as it cannot break, and will neve need repairs, as is the case with wood. In putling them up complete at my establishmen they do not differ from the Hand Power only in pitch of thread or screw, and different kin of levers for working. One horse can pack five to eight hundred pounds on this Press J. S. SCHOFTELD, Proprietor.

That planters may get their Presses in time, will take in payment warehouse a ceptance, due October I, 1870, at cost prices, as above. Schofield's Patent Cotton Press received the First Premium at the Georgia State Fair for 1869.

It was proved superior to anything for plantation cotton packing on the ground. It is put up more substantially, is more simple and efficient than any cotton press in use. There is nothing complicated or to get out of order about it, and after being used twenty years, will be as good as new. Lever presses with not do, they will get out of order, and in a few months become a useless article, and are displaced by a screw press.

This cotton press is fast displacing the old wood screw and other presses, and of over 500 presses sold last season, I have not heard a complaint from one; but on the contrary, and daily in receipt of letters from the first planters of all the Cotton States certifying to their efficacy, and expressing their opinion that it is superior to all others.

Also --- Wilcox's Improved Horse Power, Superior to any in use for Ginning Cotton. Made only at SCHOFIELD'S IRON WORKS, asl joining Passenger Depot, MACON, GA.

COTTON PRESSES,

As I have succeeded in getting a patent a granted me on the lith day of August, 1870, on presses for hay and cotton, I now propose to place them before the public for general use. My invention is reduced down to simplicity, strength and durability so much that any set of feld hands can work is with good success. I claim for my invention, over the Utley and all other presses, this, viz: My griping blocks which grip the upright from bars at soon as the levers are applied, hold fast and forces the follower down with great power; as soon as the power is taken off the blocks will slide down the bar perfectly loose, and ready for renewal of hold, which MEMPHIS FAIR OF 1870 blocks will alide down the bar perfectly loose, and ready for renewal of hold, which renders it entirely impossible to get out of order, a virtue which no other press has. The lever which I use, is a common straight lever applied direct to the griping blocks; my follower is run up by means of winding and rope and is arranged to work very easy. All who may wish a press, royally, county or State rights, will apply to J. F. Dowdy, NG H. Front street Memphis, who has the millight to self and make titles, and will take fleasure in showing the press, which is situated in front of his office. WHIL commence on MONDAY, October 190th, and continue six days. The amount of premiums offered \$15,000.

THE PREMIUM ON COTTON alone amount to \$300 those offered by the cotton factors of the city being arranged as
